

FOCUS WILL BE ON TWO ASPECTS: Candidate Portal + Corporate Recruitment Tool

Candidates' Portal

- ❖ Purpose
 - To support candidates applying for UK jobs, whether from abroad or within the UK (primarily those on Skilled Worker visas or wanting to get one)
 - To connect candidates directly with only sponsor-licensed (SL) companies
 - To make the applicants clear on the regulatory requirements in the UK
 - To provide candidates with a clear career path with a timeline
 - To offer candidates the needed training to get to fulfil the requirements
 - To offer the candidates interviewing tips that are relevant to UK context
 - To offer candidates visa application service
 - To offer candidates with concierge services once they are in the UK
 - To offer candidates a list of contact details recruitment companies that work in their own field in the UK
 - To provide candidates with reports every month on what they have applied so far and give them feedback on what they can do next
- ❖ Company Access & Visibility
 - Candidates can browse all sponsor-licensed companies, organised by industry.
 - Companies with active vacancies will be clearly flagged.
 - Candidates will only see vacancies from sponsor-licensed employers.
- ❖ Vacancies & Notifications
 - Real-time notifications when new vacancies are posted.
 - Easy access to all live job opportunities within relevant industries.
 - Reporting monthly on progress and analysis to make better next steps.
- ❖ Applications
 - Candidates can:
 - Apply directly to live vacancies.
 - Send their CV (and cover letter) to SL companies even if no vacancy is advertised.
 - Option to automatically apply to multiple relevant companies and roles within matching industries.
- ❖ Profile & Automation
 - Candidates upload their CV once.
 - The platform:
 - Uses the CV to auto-fill applications.
 - Eliminates the need to repeatedly enter qualifications and experience.
- ❖ AI Support Tools
 - Built-in AI tools to:
 - Generate cover letters.
 - Assist with job applications quickly and efficiently.
- ❖ Professional Guidance (Healthcare Focus)
 - Dedicated guidance for doctors, nurses, and dentists:

- Clear outline of UK regulatory requirements.
- Step-by-step pathway for candidates who are not yet eligible, helping them understand what is needed to qualify.
- ❖ Training & Qualification Support
 - The platform will later provide integrated training programmes to help candidates meet UK regulatory requirements and obtain the necessary licences.
 - Examples include:
 - Nurses: OSCE (Objective Structured Clinical Examination) preparation.
 - Doctors: PLAB (Professional and Linguistic Assessments Board) test preparation.
 - Dentists: ORE (Overseas Registration Exam) preparation and guidance on General Dental Council (GDC) registration requirements.
 - This will create a complete pathway from initial application to full professional qualification and employability in the UK.
- ❖ Candidate Promotion
 - Candidates can pay to boost their visibility to sponsor-licensed companies.
 - Ability to:
 - Promote their profile.
 - Highlight their skills, value, and what they can offer employers.
- ❖ Stage-Based Journey (Platform Experience)
 - The entire candidate journey will be presented in clear, structured stages from the moment they subscribe.
 - The process will be intuitive and easy to follow, with candidates completing their profile first and then progressing through each stage.
 - A colour-coded system will indicate status at each stage:
 - Red: Not started / action required /Not eligible
 - Orange: In progress /Not yet eligible
 - Green: Completed /eligible
 - Stages include:
 - Profile Completion: filling in personal details, CV, and qualifications
 - Regulatory Compliance: meeting UK requirements for their profession
 - Applications: applying to roles and companies
 - Career Pathing: guidance on suitable roles and progression
 - Training (if required): access to instructor-led or recorded training
 - Reporting & Insights: analytics and recommendations to improve chances of interviews and job offers
 - Interview to Placement: interview preparation (including recordings), job offer stage
 - Visa application and onboarding/orientation

*Can also later have some SL companies that might be happy with commission-based work and candidates who are happy with investing into UK companies and then connect those.

Employers' Portal: Headhunting & Recruitment Tool:

- Purpose
 - To provide employers with a powerful headhunting tool that complements traditional recruitment.
 - Unlike standard job postings, this enables proactive candidate sourcing rather than waiting for applications.
 - This also under the full control of the HR of the company itself.
- HR System Integration
 - The platform connects directly with the employer's HR system.
 - When a vacancy is detected/created, it can automatically:
 - Trigger a candidate search
 - Begin talent sourcing immediately
- Global Talent Sourcing
 - Employers can search for candidates globally, not limited to sponsor-licensed companies.
 - They can define:
 - Region / geography
 - Role and job description
 - The platform will identify and match candidates from sources such as LinkedIn and similar databases.
- Smart Candidate Matching
 - The platform will:
 - Analyse job requirements.
 - Match candidates based on skills, experience, and relevance.
 - Present candidates in a ranked list (best to least suitable with reason and percentage).
- Direct Headhunting
 - Employers can:
 - View matched candidates instantly.
 - Directly contact selected candidates for interviews.
 - This removes the need to wait for inbound applications.
- One-Click Activation
 - Employers can launch a headhunting campaign with a single click once the role is defined.
 - The process is designed to be fast, automated, and efficient.
- Advertising & Reach
 - Employers can allocate a budget for promotion.
 - This increases visibility and outreach to attract higher-quality candidates.
- End-to-End Recruitment Support
 - From vacancy creation to candidate sourcing and outreach:
 - The platform supports faster hiring cycles

- Improves quality of hires through targeted matching
- White Labelling
- ❖ The platform will offer white-label solutions for employers and partners.
- ❖ Companies can customise the platform with their own:
 - Branding (logo, colours, identity)
 - Domain / interface
- ❖ This allows organisations to use the system as their own internal recruitment and headhunting tool.
- ❖ Particularly suitable for:
 - Large enterprises
 - Recruitment agencies
 - International hiring programmes

*We can also provide a Visa Application process service (UK/KSA)
